Profile

As a recent graduate with a degree in b-tech computer science, I am eager to kickstart my career as a Full-stack Web Developer, specializing in Python Django and React. My academic background, coupled with hands-on projects and internships, has equipped me with a strong foundation in web development, and I am enthusiastic about applying my skills to contribute to innovative and dynamic projects.

Skills

- Python
- Django
- HTML
- CSS
- Bootstrap
- MySQL
- React
